

# SLIDING GLOVES

Manufactured in the same fabric as the slide sheets with ultra-low friction materials, sliding gloves allow to easily reposition a patient in a bed.

They must be placed on the caregiver hands to be effective.

# PELVIC SUPPORT BELT

It is designed to prevent patients from falling, to compensate slackening of abdominal muscles and to position in bed as it provides a secure positioning through a strengthened pelvic comfort.

Its main goal is to provide a stable position and we recommend using it in a bed.
